

# Economic Publications Subscription Form

## Construction Industry Forecasts

Construction Industry Forecasts provides analysis of the drivers of construction activity and forecasts for 29 industry sectors, including house building, roads, rail, schools and hospitals, over the next 5 years. Forecasts for all 29 sectors are published quarterly, accompanied by comprehensive written analysis in Summer and shorter update reports, focusing on what's changed and the latest industry developments, in Spring, Autumn and Winter. The Detailed Forecast and Quarterly Updates include a breakdown of the forecasts in Excel.

**NOTE: All Forecasts published before 23 June 2016 reflected assumptions of the UK remaining in the EU.**

## CPA Trade Survey

CPA Trade Survey reports the results of the Association's quarterly survey of construction products manufacturers, providing a timely assessment of current and expected conditions in the sector.

## Construction Trade Survey

Construction Trade Survey brings together results from surveys of building contractors, specialist contractors, civils contractors and products manufacturers. It provides a pan-industry assessment of current and expected conditions.

## Market Information

Market Information is a new summary report available to subscribers of the Full Information Package including the latest key economic, construction, building products and housing information from data sources including the Office of National Statistics, the Bank of England, Department of Business, Innovation and Skills that is updated as soon as data is published and downloadable by subscribers from the Association's website.

## Construction Information Database

Purchasers of the Full Information Package also have access to the Construction Information Database, an excel database of the latest relevant economic, industrial, construction and housing information updated weekly and downloadable from the Association's website.

## Full Information Package

The Full Information Package provides all of the Association's economic research publications on construction for £810 per year (including the Construction Information Database and Market Information).

All prices include VAT at 20%
