

The Respected Voice

Our Vision:

To be the respected voice for construction products, ensuring our sector's contribution is valued by policy makers and the entire UK construction supply chain.

Our Aim:

To deliver real value to our members by helping them to be more successful in the UK.

Our Service:

We offer expertise and services which help grow the market, encourage investment, improve knowledge and reduce regulatory and taxation risks.

Objective		Priorities
Recognition for the Sector	The first point of contact for government and industry seeking advice about policies affecting our sector and the wider construction supply chain.	<ul style="list-style-type: none"> • Promote the value and interests of the construction products sector to policy makers, to ensure an understanding of manufacturers' and distributors' key roles in the success of both the wider construction industry and the UK economy. • Represent our members across industry and government organisations and committees, to share our expertise, implement solutions and advocate on the sector's behalf.
Supporting Market Growth	Making the case for long-term policies which support growth, enhance productivity and attract investment.	<ul style="list-style-type: none"> • Forecasting, researching and surveying the UK construction market, including the National Infrastructure and Construction Pipeline and major private projects, to verify activity, support confidence and incentivise further investment. • Drive greater collaboration across industry and with government, to encourage innovation, improve productivity, lower costs, reduce waste, and build a highly skilled workforce.
Reducing Risk	Shaping policies and providing expertise for members which reduces their regulatory risk and improves their business confidence.	<ul style="list-style-type: none"> • Leading industry consensus to help develop clear, effective regulations and standards that are fit for purpose and drive innovation, quality, performance and whole-life value of the final asset. • Advancing BIM, LEXiCON and digital object indicators, to help manufacturers and distributors realise the opportunities at the forefront of smarter, more efficient supply chains.

Our Members in 2018

Companies

- Aggregate Industries
 - BASF
 - Baxi
 - Bosch Thermotechnology
 - Breedon Group
 - Dow Chemical Products
 - Ferguson (Wolseley)
 - Forterra
 - Grafton Group

Our Industry

directly provides
333,000 jobs
(more than automotive manufacturing and
aerospace manufacturing combined)

working across

23,000
companies

with a turnover of more than
£56 billion

has its heart in the
Midlands and the **North**
but is active in every town
and region of the country

Did You Know?

78% of all
construction products
used in the UK
are made in the UK.

One Strong, United Voice

*The Construction Products Association
is the leading voice to promote and
campaign for construction product
manufacturers and distributors.*

The CPA is committed to raising the profile of our industry and members' businesses, helping grow the market and reducing regulatory risk.

We champion our members' interests across both the manufacturing and construction industries. Because we are product-neutral, the CPA speaks for the construction products industry as a whole with one strong, united voice.

We Represent

85% of the
industry by value

The CPA aims to provide our members with unique expertise and support, including:

- tracking and assessing government policies
- interpreting those policies and regulations and providing expert advice
- leading consensus with members and the wider construction supply chain on major issues
- representing our members across industry-wide organisations and alliances
- supporting and lobbying policy makers in the UK and EU to develop effective, evidence-based policies and solutions
- producing authoritative economic, technical and sustainability publications

Ultimately, the CPA is here to provide our members and policy makers with the real value and insight to ensure this vital UK industry achieves a successful, sustainable future.
